The Nishiyamagata area is a place like this:

Yamagata City Youth Nature House

The Nature House can be used in spring, summer, autumn, and winter. Also, in autumn, there are events at the Nature House, so please give it a try!

Mt`Tokami

Mt`Tokami, a symbol of the Nishiyamagata area, has a rich history and is said to have been climbed by Naoe Kanetsugu, a retainer of the Uesugi clan.

The Very rare Sake: KashiwaguraMonden

Kashiwaguramonden is produced in Nishi-yamagata area. With a lower production volume than the famous sake "Juyondai," it is extremely difficult to obtain. Which is why it's called the legendary sake.

Nishi Park

Nishi Park mainly features the Play Forest, Nobinobi Garden, Imoni Plaza, Park Center, and Campground. Recommended for people of all ages!
